

choose is part of my political DNA. I hope it never changes.

One of the Justices asked one of the attorneys addressing the Court: Why don't we just leave it to the States?

Well, one of the last times Mississippi and its confederate States, all of which have abortion laws that would go into effect if *Roe v. Wade* was outlawed—the issue was “leave it to the States on slavery.” That was wrong then, and it is wrong now. Women have the right to choose.

AMERICORPS FUNDING

(Mr. GROTHMAN asked and was given permission to address the House for 1 minute.)

Mr. GROTHMAN. Madam Speaker, we could talk forever about this Build Back Better bill, but I am going to shine a light on an underpublicized provision in there.

I believe in the last month, for the first time, we hit \$29 trillion in debt. So one would figure on any spending bill that goes through this House, we should be really conservative when it comes to spending more money.

AmeriCorps is a program that right now we spend about \$1 billion a year on. In this bill, we are going from \$1 billion a year to \$4 billion a year. We are quadrupling the amount of money spent on a program that is fraught with fraud, people taking large amounts of money out of the program. Also, people are falsifying timesheets to get benefits they aren't entitled to. Meanwhile, the inspector general cannot do an appropriate job of investigating fraud because they aren't even turning over records from the past.

If there is one program that ought to be looked at carefully, it would be this. Instead of paying more attention to fraud in the program, we are quadrupling the size of the program, not to mention it is hurting people.

TAX AND SPENDING SPREE

(Mrs. STEEL asked and was given permission to address the House for 1 minute.)

Mrs. STEEL. Madam Speaker, the massive social spending bill the House passed just 2 weeks ago is a disaster for our future. If the policies in the build back framework are made permanent, this spending would amount to \$4.12 trillion over the next 10 years.

I always say that other Members of Congress who write these bills must not know how to count because the revenue for this bill is just not there.

We should not spend more than what we have. Families don't run their households this way. The government shouldn't either.

I do not want my kids and grandkids paying for this irresponsible spending. Americans are already experiencing record-high inflation.

The trillions in new spending will only make costs higher. I continue to fight against the government taking more of our hard-earned money.

RISING INFLATION HARMS FAMILIES

(Mr. VALADAO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. VALADAO. Madam Speaker, rising inflation is continuing to harm families and communities across the country.

Americans are paying 30 percent more to heat their homes this winter and 11 percent more for their electricity bills. The Central Valley gas prices are nearly \$5 per gallon. The cost of housing is rising, and grocery bills are historically high.

Madam Speaker, Americans are paying more just to keep food on their table. Meanwhile, the House majority and the administration continue to add to this problem with reckless, out-of-control spending by implementing irresponsible and shortsighted economic policies.

These spending packages will hurt our economy by drastically increasing our record-high inflation rates and will continue to cripple generations to come by passing on more debt to our future Americans.

I urge my colleagues in the majority to act urgently and work across the aisle to address this out-of-control inflation.

IN SUPPORT OF THE ARECIBO OBSERVATORY

(Miss GONZÁLEZ-COLÓN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Miss GONZÁLEZ-COLÓN. Madam Speaker, I rise today in support of the Arecibo Observatory one year after the collapse of the former 305-meter radio telescope.

For 57 years, the radio telescope provided for the advancement of scientific research and development, supported STEM education, and fostered multiple discoveries that helped us better understand our planet and the surrounding universe.

News and footage of the shattered telescope has deeply impacted those who have worked, studied, visited, or knew about this feature of the facility since 1963.

We must now focus on what lies ahead.

Congress must continue recognizing the significant asset our Nation had in this instrument, as we work with relevant Federal agencies to move forward and, most importantly, build on the capabilities we once had with the former telescope.

THE CONSTITUTION DOES PROTECT AN UNBORN CHILD'S RIGHT TO LIFE

(Mr. ROSE asked and was given permission to address the House for 1

minute and to revise and extend his remarks.)

Mr. ROSE. Madam Speaker, today, the United States Supreme Court will hear *Dobbs v. Jackson Women's Health Organization*, a major pro-life case that focuses on protecting the unborn, not restricting the rights of women.

Instead of prioritizing the abortion industry, we as a Nation should be focused on prioritizing the sanctity of human life.

As the father to two sons, Guy and Sam, and having lost a son, Mack Wayne, at 19 weeks in the womb, I strongly believe life begins at conception and that an unborn child is a human life.

Thanks to modern medical advancement, we know that: at 5 weeks, unborn babies have a heartbeat; at 10 weeks, unborn babies have developed arms and legs and fingers and toes; at 12 weeks, unborn babies feel pain; at 15 weeks, unborn babies have a fully developed heart.

This landmark case gives the Supreme Court a chance to correct the mistake it made nearly 50 years ago and the opportunity to acknowledge that our Constitution does protect an unborn child's right to life.
